AGE FRIENDLY STREETS

Say Hello & Chat

Small acts are the start - when taking in parcels, putting bins out, whenever; don't be shy as most people want to be friendly.

Why we need Age Friendly Streets

Neighbours can be right next door, but if we don't know them it can make us feel isolated.

This can be a particular problem for older people. About 1 in 6 residents in your street is over 65, and this number is growing.

Whatever our age, we all have something to offer, and we can become vulnerable at any time.

With our lives being more mobile, streets more mixed, and families living further apart, neighbourly connections are now more important than they've ever been.

Let's reinvent neighbourliness

Be the street you want to live in, and build a new mood in your street between generations, so no one feels isolated.

From just saying hello to holding a street meet, small neighbourly acts make a difference.

The campaign is run by **STREETS ALIVE** the national neighbours and street party charity. Since 2001 we have made it easier to hold street parties across the UK, and seen the amazing things residents can do.
