Community Led Research Pilot (CLRP)

A new opportunity in Reading to develop a community led research project!

Community led research can create change and bring attention to important issues that matter to your community group or organisation.

Funding & Support:

- **April/May 2023:** Apply for a grant to develop a community led research proposal/plan
- **June 2023:** Grant available for shortlisted proposals to carry out a research project.
- A dedicated team to support you every step of the way to explore local priorities.
- Support to shape your local issues into a research project.

Research, science or academic skills are not needed!

The Community Led Research Pilot is a partnership led by the British Science Association, funded by UK Research and Innovation (UKRI).
Community Led Research Pilot (CLRP)

We are seeking groups and organisations working at grassroots level with:

• minority ethnic groups
• communities living on low incomes
• experiencing inequalities in accessing education and work
• people who are neurodiverse or are considered to have a disability.

• Research, science or academic skills are not needed!

The Community Led Research Pilot is a partnership led by the British Science Association, funded by UK Research and Innovation (UKRI).
