## Learning outcomes

- **Legislation:** understanding the law and its implications
- **Violent extremism including Islamist, Far Right, mixed and non-ideological extremism, Incels and their cross overs:** what does this mean, what might it look like, how can we tell?
- **Wider history, context and community experiences**
- **Understanding to prevent: recruitment techniques and propaganda inc incels, gaming & conspiracies**
- **Processes** of radicalisation and disengagement
- **Identifying risk** and vulnerabilities in individuals
- **Group exercises** to embed theory into practice
- **Case studies** relevant to participants, from a range of extremist ideologies
- **Preventing, intervening, signposting, de/escalating**
- **Tools** including the **Behaviour Barometer** visual tool to aid proportionate responses to vulnerability

*"I thought the workshop was brilliant. Have seen a couple of staff who attended who gave really positive feedback! In fact one, who had to leave early to attend a meeting, said 'coincidentally it came up in the meeting that a young man in one of the cases had recently shaved his head and started putting up Hitler posters and I felt much more confident discussing this after the training."*
